

Quantitative Text Analysis

Meeting 9

Petro Tolochko

Course Assessment

- Participation (20%)
- Homework (20%)
- Final paper: application of one or several automated text analysis methods on a topic related to the Master's thesis or a topic of free choice (60%)
- Contents: Methods + Results + Discussion section of a (pseudo)-academic paper (6-8 pages)
- Commented code
 - Python / R / Julia / ...
- Deadline: May 15th 23:59:59

Final Paper Assessment

- Max **60** points
- Consistency (20 points): Motivation (objectives), analysis and interpretations of results are closely related
- Readability/Format/Code (30 points): “correct” application of the method to data; code is commented; code is running.
- Critical reflection (10 points): some reflections for bigger decisions in the design and in respect to the results
